Work History

WEB DEVELOPMENT INSTRUCTOR (HTML, CSS, JavaScript, PHP)

National Skill Institute

04/18/2024 - 07/26/2024

- Developed and delivered comprehensive courses in HTML, CSS, JavaScript, and PHP to a diverse range of students.
- Designed interactive lessons and practical projects to enhance students' understanding of web development principles.
- Provided one-on-one guidance and support to help students achieve their learning goals.

Things I've Worked On

Pen and Page | penandpage-pemba.vercel.app

- A blog website using Django REST Framework (DRF) authentication.

Book a Room | bookaroom-pemba.vercel.app

- Developed a web application with authentication, hotel management, and reservation features via API.
- Served individual and corporate clients for hotel booking and management.
- Offers a seamless platform for exploring and managing hotel stays.

TeamTrack | github.com/pembattech/team-track

- A project management tool built in PHP for my college project defense.

ConnectHive | github.com/pembattech/connect-hive

- A Laravel-based social network for sharing posts and images.

Virtual-Korean-Exam | github.com/pembattech/virtual-korean-exam

- An online platform for Korean language assessment with interactive exams using Laravel.
- Implemented multi-format question support(text, image, audio) and adaptive forms based on user input.
- Integrated real-time feedback, scoring, and secure user authentication with detailed result analysis.

Buy-now | github.com/pembattech/buy-now

- Developed an eCommerce platform in Laravel with Sanctum for secure token-based authentication.
- Allowed order placement and management for both guest users (via cookies) and registered users.
- Integrated filtering in the product API for enhanced search functionality.
- Built a responsive frontend with Laravel Blade, streamlining login and registration flows.
